Airport and school contract gains for MET

Bus group MET's subsidiary, BRH ViaBus, has secured an eight year contract running the LGG Flughafen Sued Linie 751 which links Frankfurt Airport to the city's industrial and residential areas.

The contract, awarded through public tender, will commence in December 2016 and will see the company purchase a fleet of seven new city buses. MET first began operation of this service in December 2015, on a one-year contract.

In addition, although MET's Axel Tuecks subsidiary ends its Neuss school contract after five years, it is adding seven more buses to expand school operations in the Eifel region (Cologne) from summer 2016.

MET CEO, David Leeder said: "We continue to see a healthy pipeline of tendering opportunities, and these changes not only increase our Order Book but strengthen our business in Hessen."
