### **Two more contracts for BRH ViaBus in Hanau area**

The MET subsidiary wins a further two interim contracts let by the regional passenger transport authority, Kreisverkehrsgesellschaft Main Kinzig Kreis. The contracts start on 24 June 2018 and will run for 7 to 9 months until a decision about the main contracts is finalised.

BRH ViaBus will run three midi buses on route 02 (Stadt Nidderau) and a fleet of 16 buses on route 06 (Gelnhausen-Langenselbold). All buses will be low floor for better accessibility.

Heiko Schütte, BRH ViaBus Managing Director said, "We are very pleased to have won two more contracts in MKK. We offered the best value for money to the regional transport authority and we will give our passengers a reliable and comfortable bus service."

MET is the second largest privately owned bus operator in Germany with substantial operations in the Cologne, Frankfurt and Mannheim city regions.
